$5000 REWARD!

A Great Discovery!

I will pay Five Thousand Dollars for a better remedy than ADAMSON'S BOTANIC COUGH BALSAM, "unfailing remedy" for Coughs, Colds, Sore Throat, Bronchitis, Asthma, Croup, Soreness of the Lungs, Whooping Cough, and all diseases of a like nature. It will not make new lungs, nor will prevent the disease from spreading throughout the whole substance of the Lungs, therefore facilitating recovery.

Having been in the medicine business for more than 20 years, I have long felt the need of a safe and effectual cough remedy. This having been my object, I have for two years or more been engaged in producing a remedy which would stand on its own merits, which I could recommend with confidence. This remedy I have at last discovered, and after retailing nearly 2000 bottles over my own counter with the most flattering results, I now offer it to the public under the name of Adamson's Botanic Cough Balsam. It is prepared from vegetable Extracts and Barks of Wonderful Healing Properties, and this Balsam is highly recommended by Physicians, Clergymen and others, testimonials from whom I can show without number.

I have in my possession and could publish an amount of testimony, setting forth the virtues of Adamson's Botanic Cough Balsam, from those who have been cured by it, that would fill volumes; but I deem the publication of such a mass of testimony unnecessary, inasmuch as the introduction and general use of this medicine is considered a guarantee of its utility and appreciation by the public. Following, I give a few of the many testimonials received; the originals can be seen at my store:

From Geo. W. Martin, M. D., Graduate of "Univers ty of New York, Ayler's Surgical and Medical Institute," "Bellevue Hospital," and "New York Opthalmic Hospital," Late Surgeon in the Army, &c., and I. H. Stearns, M. D. Surgeon National Military Asylum, Togus, Me.:

Having examined the formula from which Adamson's Botanic Cough Balsam is prepared, we recommend it as a safe and reliable medicine for the care of coughs, colds, whooping cough, asthma, &c., &c.

From Alex. Kincaid, Forty-four Years Toll Gatherer on Kennebec Bridge.

I have been troubled with a very bad cough for forty years and after trying almost every medicine in the market, I at last decided to ever quitting rid of my cough, which at times was very severe, especially after catching a slight cold; and I could find no relief until, upon the advice of a friend, I purchased one bottle of Adamson's Botanic Cough Balsam, which, to my surprise, all relied me instant relief; and now I would not part with this medicine upon any terms, and I am very happy to add this testimony to the many hundreds who have received, and consider it a most valuable remedy.

From L. B. Brown, Editor Maine Standard.

I have used Adamson's Botanic Cough Balsam in my family for some time, and consider it the best general remedy for coughs, colds, and kindred complaints that I have ever tried. In such cases it is invaluable, proving by its use to be all that it is claimed to be. As a safe, reliable and pleasant medicine, I know of nothing that equals it for the cure of coughs, colds, &c.

From J. Frank Pierce, Periodical Depot, 128 Water Street Augusta, Me.

I am pleased to say that two bottles of your valuable Adamson's Cough Balsam, has entirely cured me of a cough of nearly a year's standing. I have tried many mixtures during that time without success.

From Mrs. Hannah Brown, Augusta, Me.

I have suffered for fifteen years with Asthma, and after taking cold I would suffer severely until I called a physician and vomited several times. Your Cough Balsam soon relied, and by this means obtain rest. I have been so weak after each attack of Asthma, that I could not leave my room for six weeks. One week ago I took a sudden cold, and I thought I was to have another attack; so I requested my husband to call a physician; but, not finding a physician in his office, instead he bought a bottle of Adamson's Botanic Cough Balsam, which I commenced taking, and in the morning I had nothing of the Asthma, and was able to do my work. I have never taken any medicine which has done me so much good in so short a time. My native place is New York, and I was attended there by Doctors Anderson Bean and Lozier, very skillful physicians; from them I came East for my health and at times I was quite well. While in Vermont, I consulted Dr. Rogers, but I was doctored in New Hampshire by Dr. Richardson; in Massachusetts by Dr. Parker, all without success until taking Adamson's Botanic Cough Balsam; and to this I owe my present health, and can safely recommend it to others as a very valuable medicine.

From O. C. Whitehouse firm of O. C. Whitehouse & Co., Dealers in Dry Goods, 178 Water St., and A. H. Fogwell, Esq., State St., Augusta, Me.

The undersigned, having used Adamson's Botanic Cough Balsam, consider it a very valuable remedy for coughs, colds, hoarseness, influenza, soreness of the throat, &c., and cheerfully recommend it to those affected.

From A. H. S. Davis, Editor of Chronicle, Farmington, Maine.

I have used your Adamson's Botanic Balsam, and unhesitatingly pronounce it superior to any medicine of the kind I ever saw. It is simply invaluable as a household remedy for coughs, colds and sore throat. I would not be without it.

From Mrs. H. B. Hodges, Milliner, No. 4 North's Block, Water St., Augusta, Me.

Having used Adamson's Botanic Cough Balsam in my family for a considerable length of time, I am convinced that it is the best medicine for coughs and colds that I have ever tried. It affords almost immediate relief, and I would pay twenty times its cost rather than do without it if I could not procure another bottle. I cheerfully recommend it to all.

From John P. Wyman, Postmaster, South China, Me.

Too much cannot be said of Adamson's Botanic Cough Balsam, sell it the best remedy for coughs, colds, &c., that I have ever seen, and to its wonderful effects I owe my recovery. It is well worthy of praise, and I would advise all to use it who need relief.

From E. C. Allen, Proprietor of the "Peoples' Literary Companion," and "Our Young Folks' Illustrated Paper.":

I consider Adamson's Cough Balsam of great value for coughs, colds, &c., &c. Have tested it.

MR. HOAR'S EDUCATION AND LABOR BILL.

THE DEBATE IN THE HOUSE.

Mr. Hoar of Massachusetts, from the committe on education, reported a bill for the appointment by the President, with the advice of the Senate, of a commission of three, for two years, unless their duties are sooner accomplished, to investigate the subject of wages and hours of labor, the division of the joint profits of labor and capital between laborers and capitalists, and the social, educational and sanitary condition of the laboring classes of the United States, and show how the same are affected by existing laws regulating commerce, finance and currency—the commissioners to receive a salary of $5000 each, and may employ a clerk. They are to report the result of their investigation to the President, to be transmitted to Congress.

Mr. Hoar moved that the bill be made a special order for the 10th of January. He said he proposed to give an opportunity for amendments to be presented.

The Speaker stated that the proposition was that the bill be a special order for Jan. 10, to the exclusion of all other orders that day.

Messrs. Wood and Kerr objected.

Mr. Hoar then moved to put the bill on its passage now.

Mr. Kerr of Indiana moved to lay it on the table.

The Speaker said that Mr. Hoar had the floor, who proceeded to explain and advocate the bill. He was sure that the bill when understood would receive almost unanimous approbation. There was a very discontent from all parts of the country and the civilized world by the laboring classes. In this country the laboring classes were the State itself, the others being comparatively so few that they might be left out in considering the question who are the persons whose will should determine the policy of the country, and for whose benefit the policy should be directed. It was being urged, not only by agitators and malcontents, but by a large and increasing number of the laboring classes, that the existing institutions and laws of this country on the subjects of tariff, finance, currency and taxation tended more and more to give capital an undue share in the joint profits of the results of labor and capital, and to deprive labor of its due and proper share.—The first duty of legislators in regard to such a complaint was to provide for a thorough, exact and regular ascertainment of the fact. Congress ought not to be afraid of the light, for no abuse was so great, no darkness so profound, no prejudice so intense, as to require Congress to cover it with a veil or fear to let the light in on it. He did not place the bill on the judgment or recommendation of the committee alone. The slight expenditure proposed was due to the laboring men themselves. The laboring party of his own State last Summer had recommended the passage of this very bill, and had, although politically opposed to the republican party in consequence of its giving attention to this matter. The grand international association of working-men, an organization which pervaded Europe; and which was making its voice heard and its power felt everywhere, has asked of Congress this special measure. He was not competent to express an opinion on the interesting historical question of the commune and of the events which took place in Paris last summer. The other side of the story had not been heard; but one thing was known—that there was a cause in existence and an object in view, which led those working people in Paris, young men and young women in the morning of life, not merely from the ignorant and oppressed classes, but from classes of culture, of family ties; and in some cases of wealth—to go down to death calmly, heroically and cheerfully as over bridegroom went to the marriage feast; and he did not believe that a cause which had inspired such heroism was a cause which was not entitled to the respect of Americans everywhere. The International Association of European and American Working-men had a title to respect for having established a relationship and recognized a kindred among men of all nations growing out of the common bond of labor, which was greater, more powerful and more binding than any mere national attachment, or than any tie connecting the subject with the sovereign.

America was the last nation that ought to be ungrateful for that sublime accomplishment. In the darkest days of the late civil war, when the governing classes of England would have been glad to have joined the French Emperor in recognizing the Southern Confederacy, they were only prevented from doing so by the angry growl from the working-men of Lancashire, saying to the English government "We love the working men of North America a great deal better; we are more nearly allied in interest and feeling to them than we are to the aristocracy of England; and although we have borne many things from you, one thing we will not bear,—that you shall array the power and might of England against the cause in which these American working men are engaged." He held in his hand the general rules and administrative regulations of the international working-men's association adopted in London last October by delegates comprehending the leading minds from all civilized nations of the world. Among other things they expressed a desire that inquiry should be instituted in each locality where branches of their association existed, and that there should be co-operation, especially in the United States, in ascertaining the facts which the pending bill required to be ascertained. He sent to the clerk's desk and had read extracts, to which he referred. He desired to avoid anything that should excite political antagonism. He was sure that a considerable number of influential democratic members approved of the purpose of the bill, and desired the investigation, which it contemplated. In Massachusetts a similar bureau for the investigation of the question had been established, and the result of its examination had been claimed by the democratic party of that State to show great mistakes and errors in the administration of the affairs of that State by the republican party.

Whether that claim was right or wrong, he would not now discuss. All he desired to say was that he welcomed the investigation as cheerfully if its results should be to show that in all measures to which he had given his assent there had been error, as if it should be the reverse. This was a question as to whether the daily life of the millions of America could be made better. It was a question too high for party, too sacred to be mingled with the petty schemes or petty ambition of mere politicians.

Mr. Dawes of Massachusetts said that he did not rise to debate the merits of the measure. He regretted that Messrs. Kerr and Wood seemed not to complain so much of the bill not meeting their views as being opposed to its consideration at all. He did not think that they represented that party on this subject, but was surprised that gentlemen of such ability had not laid their attentions called to the fact that no subject was looming up in the near future that demanded more earnest thought and legislator than the question of relationship of labor and capital. He thought that his friend from Indiana [Kerr] would see upon reflection, that it was better instead of taking upon politics, to stop for an hour or so [illegible] the subject. THE PORTLAND "PRESS" AND THE E. & N. A. RAILWAY

We have recently had frequent evidence, of what seems to be a preconcerted attack from different quarters upon the E. & N. A. Railway Company and through that corporation upon the railroad interests of Eastern Maine, the Portland Press leading the assault and giving a ready support at the hands of the Calais interest in a New Brunswick railroad within a few weeks the Press has contained a number of spiteful dings and innuendoes concerning the E. & N. A. Company, and on Wednesday last it conspicuously paraded at the head of its editorial column the following unwarranted paragraph the animus of which speaks for itself

INFORMED RUMOR.

It is rumored that the European & North American Railroad is now owned and controlled by Pennsylvania parties, who are connected with the Central road of that State.—In other words, the road on which the people of Maine have bestowed all their public lands and a large money subsidy, has already fallen into the hands of that king of railroad kings, Tom Scott. If this is the case, it can no longer be a matter of surprise to anybody that the lands set apart for settlement including that other State investment New Sweden, are the object of this pampered corporation's greed

It should be unnecessary for us to remind the Press that the editorial publication of such a paragraph in a public journal supposes to be informed upon the railroad matters of the State interests it with more importance than that of a street rumor, and that prejudiced statements of the above character are not fair or editorial especially except upon reliable authority We are fully authorized to deny the inference contained in the Press's recent humor and challenge the Press to justify its extraordinary course in its attempt to prejudice public opinion with regard to ascertain the facts Neither the Pennsylvania Central nor Pennsylvania capitalists have any control of the E. & N. A. Railway and Tom Scott the special bug of the Press has no more to do with the affairs of the Company than the editor of this journal. If the capital of other States were more actively invested in enterprises for the development of Maine we should by no means regard it as a public misfortune but the Portland contemporary has raised the cry of monopoly and its paragraph is intended to excite suspicion and distrust of the management of the four most important railways in the State. As such we meet it, pronouncing every material insinuation and inference of the above paragraph as utterly unfounded, and we demand of the Portland Press a square retraction of its important rumor or the production of its authority for stating it in relation

Perhaps the Press was not satisfied with this attack, and in its issue of Thursday it returned to the assault with another batch of innuendoes published editorially as follows

AN INVESTIGATION DEMANDED

It is probable that the Legislature at its session will order an investigation of the circumstances attending the formal transfer by the Governor and Council of the public lands of this State to the European & North American railroad in the year 1868 The impression is quite general that the haste manifested by that corporation to obtain its patent in the absence of State officials whose presence and care were peculiarly essential for the protection of the rights of the people was induced by the convenient ability of some officers temporarily in charge of one of the departments The result was that the deed gives a kind of plausibility to the company's claim to the settling lands, which construed by the admitly rushed act of 68 If there is some truth in the injurious rumors they ought to be quieted by the direct of a searching investigation If there is none and if any fraud has been perpetrated by the parties ought to be exposed and punished

The transaction in connection with this settlement, is the fact of its appearance on the day following the publication in the Portland Press of a letter from ex Governor Chamberlain which effectually disposes of the unfounded charges of trickery, the Press had published charges on Thursday which had been publicly refuted on Wednesday in its journal of its own city How completely the Governor vindicates the propriety of the transaction in how thoroughly he repels the insinuations of haste and secrecy, may be seen in the following copy of his letter, of which contents the Press must have been aware when it published the various paragraphs which it have quoted

—Misrepresentation has been called to our attention by a paper in regard to an alleged improper conveyance of the public lands to the European and North American Railway Company with the implication that evil was caused by the error of the Governor in signing the deed, although you are good enough to extend the clemency of your journal to the most important railway interest in the State. As such we meet it, pronouncing every material insinuation and inference of the above paragraph as utterly unfounded, and we demand of the Portland Press a square retraction of its important rumor or the production of its authority for stating it in relation

ging against almost insurmountable difficulties, and the wisdom of which has been more than vindicated in the successful accomplishment of the work, the remarkable development of business upon the newly-opened line and its splendid promise of future usefulness.

The misrepresentation of the action of the Company with reference to the land grants has already been refuted in our columns without notice in the Press, and we will state the case here for its special information The act of the Legislature of 1868, conveyed to the Company the ownership of certain timber and lands, the character of the grant was specified in repeated clauses of the act so that the purport of the measure was apparent. Certain lands set apart for settling were excepted from the grant, and the only questions are as to some lands which it is held were not so set apart, and the timber on some townships. It is well known that the bonds of the Company are secured by lien upon the property thus granted by the Legislature, and the bondholders are entitled to the benefit of all that was granted by the State A conflict, of opinion having arisen as to the proper construction of the grant, and the Company being advised that permits had been given for cutting timber which is claimed under the grant, the officers of the Company have simply requested the State authorities to withhold permits for cutting such timber, or to appoint a trustee to hold the stumpages until the question of title can be adjudicated by the Supreme Court. That it is the duty as well as the right of the Company to obtain all that the Legislature granted them, no one will question, and there is nothing reprehensible in their request to have their interests protected, pending the final interpretation of the conveyance, by the State Court. This is the plain statement of a case which has been distorted recklessly by the assailants of the railway company. So far from desiring to interfere with settlers, every one must see that the company is more interested in the settlement of these lands than any other party and they are ready to extend every encouragement and facility in this direction The State has granted them certain lands and timber and if there is any dispute as to the limitations of that grant, the Supreme Courts is the proper tribunal for its adjustment The Company are not trying to evade this judicial scrutiny on the contrary, they desire it, and in asking for it they have around a storm of misrepresentation.

The E. & N. A. Railway is an enterprise in which Bangor has a pecuniary interest, as well as the State We have aided in its construction and are interested in its prosperity This whole section of the State is interested in the successful development of this line and its branches, and when the Portland Press unjustifiably assails its credit, it makes an attack upon the interests of Eastern Maine — We are not sure that this is not the intent of recent newspaper articles, but if the writers hope to prejudice the next Legislature against this section, we may remind them that intelligent representatives are not likely to heed unsubstantiated innuendoes, and if they hope to effect their object they had better stand up openly and deal in facts We deprecate any narrow or sectional controversies, but it does follow that we must submit silently to injustice

For its Pennsylvania Central" bugaboo, the Press has our opinion and authoritative denial, its insinuations concerning the improper delivery of the title deed are refuted by the then Governor of the State, we have distinctly stated the demand of the Company, which is ready to give a frank account of its action, and we call upon our Portland contemporary to meet the question fairly, and let us understand whether it is sincerely desirous of information, or only striking in the dark!

"FAIR PLAY"

To the Editor of the Daily Press and Courier

BANGOR, Dec. 15, 1871.

The above is the caption of an article by a Citizen in the morning's paper, in opposition to the project to secure a reservoir of water in Kenduskeag stream Now I understand this movement of the City Council for legislation upon the subject, is for the express purpose of securing fair play for the city No person to my knowledge proposes, or desires to injure the navigation of the stream, while great numbers believe that an inexhaustible reservoir of water, at all stages of the tide, within reach of the fire engines at all the bridges, can be secured at a trifling expense, without injury to any one

Citizen says the principal dam created last year was torn up almost at the time of its completion, as that the city spent its money for nothing He might have gone farther and stated truthfully that the dams were never fully completed and that the opponents of the project refused to allow time for the contractor to finish them, but destroyed them while a special committee of the City Council appointed for the purpose, was engaged in their examination

These dams did remain long enough to establish three points, viz First, that an inexhaustible reservoir of water can be secured in the Kenduskeag stream, which was proven by the filling of one of the city reservoirs, by one of the steam fire engines, from the upper bridge at low tide second, that no damage was done to the navigation by the dam, which was proven by an opponent of the project, by floating a raft over it long after the dam and then raft around upon present the Central bridge, third, that the city cannot have "fair play" in its attempts to test this project, without legislative protection which was proven by the destruction of the dams erected by the city last year, before they were fully completed, and in the face of a Committee of the City Council appointed to examine them

Let us have the experiment fairly tried. If it damages the navigation it will be abandoned of course, but if, as most people believe it will not, then all must admit it will be of great importance to the central part of the city F M

The N Y Tribune says —"There is a refreshing contrast between the accounts of the entertainment of the Grand Duke Alexis in Boston and that of New York's efforts on a similar occasion The Grand Duke had all that New York cooks, wine merchants and upholsterers could do to make his visit agreeable and a charming trip around the harbor was thrown in But Boston bids him welcome with such voices as those of Winthrop, Eliot, Holmes and Lowell. It is something to have a plenty of money to hire Delmonicos, but after all, there is more real American flavor in the verses of Oliver Wendell Holmes and the wit of James Russell Lowell!

The New England apportionment is, for Maine, five, New Hampshire, two, a loss of one, Vermont, two a loss of one, Rhode Island, two, Massachusetts, eleven, a gain of one, and Connecticut, four New York has thirty two, an increase of one.

The Senate in executive session, Thursday, took up the nomination of George H Williams to be Attorney General of the United States, and unanimously confirmed it without reference to a committee, in accordance with usages and courtesy in every case where the nominee has been a member of the Senate, his character being sufficiently known without requiring a formal inquiry.

GARVEY AND THE RING.—Charles O'Conor declines verifying or denying that Garvey volunteers to turn State's evidence against the Ring! There is considerable excitement in Ring circles on this subject

The New York Grand Jury are overhauling the filthy prisons of the city.

CHICAGO, Oct 21 1871

GENTLEMEN—It gives me pleasure in stating that the Safe I purchased of you went through the great fire and proved itself safe. It stood on the basement floor of Farwell's five story building, No 155 Washington street, from Saturday until late Wednesday afternoon, when it was dug out and found glowing hot The next day it was removed and opened, the combination lock working almost perfectly, and the contents, books and valuable papers were found intact, everything having been fully and safely preserved, It can now be seen at No 7 Milwaukee Avenue, where I have for the present located my office Yours &c, T HATHEWAY

CHICAGO, Oct 25, 1871

GENTLEMEN—The safe we purchased a year or more ago was in the Chicago fire some forty-eight hours, and when opened on the combination we found our books and papers and money, etc, all in good condition We would cheerfully recommend them to any one wanting first class protection

TRUMBALL & CRUVUR.

CHICAGO, Oct 23

GENTLEMEN—The safe I had of you was sixty hours in the fire, I find the contents of the safe all right It was in the Methodist Church block, buried in debris with two tons of hard coal around it

Yours, D K PEARSON, 198 W Madison Street

CHICAGO, October 24, 1871

GENTLEMEN—The No 7 single-door safe purchased of you some time ago went through the great fire in triumph All my valuable books, papers, and money came out in good condition and order The safe stood on the second floor of the Lombard block in which was located my office I shall soon want another safe of the same kind Yours truly,

D W ELDRIDGE

CHICAGO, October 19 1871

DEAR SIRS—We have opened our safe and found our books in perfect condition Our office was located in the First National Bank building, third floor It affords us great pleasure to give this evidence of the value of your safes

THE BUREAU PRINTING CO

THOS A LANGTON, Book keeper

CHICAGO October 25, 1871

GENTLEMEN—The safe purchased of you, the 23 was in the terrible fire of the 8th and 9th inst, seventy two hours, and though subjected to the most intense heat it preserved our books and papers in first class order We shall want a new one soon and yours is the kind we want, and would recommend them above all others

J T WARREN & CO

CHICAGO, October 23, 1871

DEAR SIRS—I am more than pleased to add to your many other testimonials the following statement regarding the safe purchased of you in September, it having saved all of our valuable papers, books and money in the late fire My store was, you are aware, located in the Farwell Hall building, which was certainly the hottest of the fire The safe was No 2 size, w th single door Let me assure you I am more than satisfied with the result, and as soon as you can supply me, I want another, same make Yours, &c, HENRY TURNER

CHICAGO, October 23 1871

GENTLEMEN—We had in use one of your No 6 L. Safes in our office, Nos 111 and 113 Dearborn street, Dearborn Street Theatre, which we are pleased to say went through the fire in complete triumph—our books, papers and money being in the very best order, and again let me assure you we are more than pleased with the result We want an other, same size and kind as no other make will do

E P THOMAS & CO

CHICAGO, November 6 1871

GENTLEMEN—It gives us pleasure to state that our books, which were contained in one of your safes, which was exposed to the fire at 166 and 168 Randolph street, came out in a good state of preservation. That the fire was *hot* everybody knows.

Yours truly, WHEATON & RANDALL, Managers Knickerbocker Life Ins Co

CHICAGO, October 18, 1871

GENTLEMEN—We are pleased to say the No 21 D. Safe purchased of you some time ago went through the great Chicago fire *triumphant*. Its valuable contents were saved to us in complete order and condition, not even the varnish blistered inside of the safe We want another same size and kind

Yours &c, SCHORNMAN & CO

CHICAGO November 4, 1871

DEAR SIRS—The No 2 fire proof Safe which I bought of you about a year ago was in the terrible fire of the 8th of October The safe stood in the second story of a three story house on the north side It fell into the basement in a lot of burning coal and wood, but upon opening it the next day, found everything to be in good condition not even scorched. In fact they were in just the same condition they were before the fire As I went through the ruins the other day, I saw that most all the safes were burnt up The door on my safe was partly melted, but I applied a little kerosene and unlocked it without any difficulty, the safe I think is good yet How much would a new door and a handle for it cost The dial was the latest style you had Yours respectfully

From Potter Palmer

CHICAGO October, 1871

GENTLEMEN—It affords me great satisfaction to say to you that the Safe purchased of you stood the test of the great Chicago fire When we removed it from the debris of our office, which was one among the twenty thousand buildings destroyed on the 9th, we remembered right of the 8th inst, we operated the lock with the combination, and on opening the doors were rejoiced to find the contents of our safe intact. Thus, with the preservation of our books and papers, we have the business to settle and adjust our accounts and insurance Again let me say it affords me much pleasure to acknowledge to you my high appreciation of the safe

Very respectfully yours,

POTTER PALMER.

Thirty Days in the Fire.

CHICAGO, November 8, 1871

GENTLEMEN—Our Safe bought of you some time since was in the great fire of the 8th and 9th of October, and although it has been in the ruins THIRTY DAYS, and was so hot when opened that we could not hold our hands on it, yet some postage stamps and promiscuous papers left in the safe were all right. If we wanted any number of safes we should use yours exclusively Yours, &c,

THE WEATHER

WAR DEPARTMENT,
OFFICE OF THE CHIEF SIGNAL OFFICER,
WASHINGTON, Dec 15—7 P M.

Probabilities

The cloudiness will probably clear away for a short time on the South and Middle Atlantic coast, followed on Saturday again by a falling barometer, southeast winds and cloudy weather The storm centre in Minnesota will move east and southeastward with brisk southwest winds on the lakes, and its influence will extend to the Middle and Eastern States by Saturday night. Southerly winds with a rising temperature and cloudy weather will probably extend over the Gulf States Cautionary signal continues at Chicago, Grand Haven and Milwaukee, and are ordered for Detroit Toledo Cleveland and Buffalo

THE WHARTON TRIAL

BALTIMORE, Dec 15—In the Wharton case Judge Miller ruled out a question propounded to Van Ness as to the symptoms and physical feelings affecting him when stopping at Oscar Ketchum's house

Charles Ketchum, a son of Gen Ketchum, then testified to his father's leaving on the 6th of June, and the anxiety of Mrs. Wharton to obtain, on the 3d of July, $4000 in bonds, which she alleged that she had given her father a year and a half previous, she admitting that there were no witnesses, to such a transaction.

Young Ketchum testified that his father's books showed that Mrs Wharton owed him $2 500 He told her so and she replied that she paid the debt in two instalments, half on July 17th, $70, with $130 interest, and the rest on January 17th, 1871, with $65 interest, and that she on the latter date destroyed the notes in the general's presence There were no witnesses to the transaction, and she had no receipts for the payment. Witness contended that on the occasion of his going to Baltimore for his father's effects Mrs Wharton took him to the room where his father died, and showed him a valise, umbrella and hat She then went down stairs and returned with a boy and other small articles He opened the valise in Mrs Wharton's presence, taking out the clothes and searching the pockets to see if he could find her note He found nothing, the vest was in the valise; his father never used drugs or laudanum

The prosecution now offered as evidence the books kept by Gen Ketchum, to show the indebtedness of Mrs Wharton, but the defense objected and the argument lasted till the adjournment.

RAILROAD SIGNALS. One whistle of the locomotive means "Down brakes," two whistles, "Off brakes," three whistles, "Back up," continued whistles, "Danger." A continued succession of short whistles is the cattle alarm The conductor's signal given by a sweeping parting of the hands on a level with the eyes, means "Go ahead" A downward motion with the hand, "Stop." A beckoning motion, "To back." A lantern raised and lowered vertically signals starting, swung at right angles or across the track, to stop; swung in a circle, to back A red flag waved on the track is a signal of danger, hoisted at a station is a signal for stopping, stuck up by the roadside is a signal of danger on the track ahead, carried unfurled on an engine is a signal that another engine or train is on its way

A GOOD EXHIBIT Captain Kirk, Harbor Master at this port, informs us that the whole number of arrivals here during the season of open navigation in the river (Mar 13 to Nov 30—262 days) was 2,744, aggregating about 330,000 tons There visited this port 791 different vessels, of which 9 were steamers, 1 ship, 6 barques, 51 brigs, 715 schooners, 6 sloops and 2 yachts—the smaller fishing craft not being included in this statement The imports here by water (by sailing vessels—steamers' freight not included) 1917 hhds molasses, 43 633 bushels salt, 32,246 bbls flour, 562,282 bushels corn, 1792 bbls pork, 19,094 tons coal, 2456 tons plaster and 25,764 casks lime The receipts of molasses were 1943 hhds less than in 1870, but the other articles mentioned show a large increase Of salt 3633 bushels more than last year were received, of flour, 8702 bbls more; of corn, 341,665 bushels more, of pork, 152 bbls more, of coal, 1094 tons more, of plaster, 456 tons more, and of lime 764 casks more. Besides the imports stated above, it is well known that the railroads and steamers have never before done so good a season's business, and their report at the end of the year will swell the aggregate to proportions of which our citizens may well be proud.

Last year 330,000 bushels of potatoes were shipped from this port, this year the harbor master reports the exportation about the same The number of bricks shipped last season was 9,000,000 this season, 9,678,000—a handsome increase The amounts of slate, leather and shooks forwarded thus far have been greatly in excess of last year, we are informed, though we are unable at this date to ascertain the exact figures The shipments of lumber were extraordinarily large—the amount surveyed from Jan 1st to Dec. 1st, being 227 401,670 feet—26,477,483 feet more than during the same period in 1870, and 56 650,767 feet more than during the same months of 1869 It will be seen that the increase in exports has kept pace with the imports, and this exhibit is exceedingly gratifying, as it shows that business here is steadily enlarging, notwithstanding the mournful predictions of the grumblers Now give us the proposed woolen and cotton manufactories, and we will make a still better show next year

THE THOMAS CONCERT Our citizens will have an opportunity this evening, never before given them here, of attending in Norombega Hall a concert by the celebrated Thomas' Orchestra, one of the largest and finest organizations of instrumentalists that ever undertook a concert tour Previous to this season the orchestra had won an unequaled reputation, and the success and universal appreciation with which it was received throughout the country induced Mr Thomas to increase its proportions and bring it to a still greater degree of perfection As now organized, it consists of sixty members, all selected from the best and most prominent musicians of this country and Europe One of the recent additions is Mdlle Krebs, the pianist, whose infant years were spent in an atmosphere of music and whose thorough artistic training has not been surpassed The closest critics are enthusiastic in her praise Mr Bernard Listeman, leader of the violins, stands at the head of his profession as a solo performer Mr Joseph Diem, solo performer on the violoncello, was expressly engaged in Europe for Mr Thomas' concerts, and in the principal cities of Germany where he has performed, has been endorsed by all the competent judges of that country as one of the most accomplished violoncellists of the present time Mr Louis Schreiber and Signor Luigi Rocco, the former a performer on the cornet and the latter on the harp, are both artists of extraordinary merit. Among the other distinguished soloists of the troupe are Mr Eugene Weiner, flute, Mr Joseph Eller, oboe, Mr Paul Eltz, bassoon, Mr Henry Schmitz, French horn, and Messrs. Charles Cappa and John Harvy, trombones,—all of whom are well known as masters of of their respective instruments

Mr Thomas does not adhere to one style of music, his aim is to pay tribute to all which is good, whether of the old or new schools, as will be seen by the following

WINTER SUNSET

[illegible] like pearly blue,
[illegible] like new born flame
[illegible] gathered stubble leaping through,
[illegible] darting bars and many a hue
[illegible] daily for eye to mark,
[illegible] lored wave clouds thick and dark
[illegible] the ascending sunset dew
[illegible] dreary wild December came

[illegible] high hear I was led the beautiful sight
[illegible] frightened while the young fire
[illegible]
[illegible] had variated twilight sunk to night
[illegible] for hail burning out its lonely light
[illegible] street I a moment stealing,
[illegible] light across the mariner's way!
[illegible] ing glory took its flight
[illegible] heathen on as I gazed

I read not of earthly change the wintry night
[illegible] God thy bosom's constant guest
[illegible] anopoled to stormy night
[illegible] assisted in presumptuous might
[illegible] yellow stroke, hence these still
[illegible] darkness he will work his will
[illegible] hold the clouds now bright
[illegible] at arbinger the pilgrim's rest.

[illegible] with curtains drown and fresh trim
[illegible] light
[illegible] home with mantle shielded eyes
[illegible] and chattering we raise the sight
[illegible] the wintry sky, more bright
[illegible] spring or summer time we see
[illegible] me these thoughts to me
[illegible] that De ember night,

New England Securities!

THOROUGHLY FIRST CLASS

'BONDS,

—OF A—

Completed Road!

A GREAT

INTER STATE THOROUGHFARE,

THE

EUROPEAN AND

NORTH AMERICAN

RAILWAY

[illegible] completed and regular trains running to St John N B (192 miles from Bangor), and to Shediac, (410 miles from Bangor)

This great Trunk Line is the ONLY Railroad connecting the Maritime Provinces, (population ONE MILLION) with the U S and Canada, and all the land travel mails and freight between these great sections of the continent, passes over this grand thoroughfare

On completion, (in July next) of some 50 miles of railway between Amherst and Truro, Nova Scotia, a continuous line of Railroad will be formed to HALIFAX and 80 miles of Ocean travel can then be saved and one 36 hours time saved in going to Halifax from Eastern Maine by railroad to or from HALIFAX instead of by steamer all the way from and to New York a large through business in passengers and freight is sure than to still further recommend the "route of the E. & N. A. RAILWAY"

The business of the Eastern Maine from Bangor to Mattawamkeag, (88 miles,) during the two years in part has been in operation, has been larger than ever before enjoyed by any new R R in Maine, the net earnings being sufficient to pay the interest on nearly two and one half millions of dollars and now that the remainder in Maine is completed (56 miles from Mattawamkeag to the State line at Vanceboro,) and the entire line opened through to St John, and connected with Houlton Woodstock, Fredericton St Andrews, Calais, Shediac &c, by tributary lines of R R already built, and by Steamers daily from Shediac with France Edward's Island the business bids fair to far exceed the most sanguine anticipations of the management. Enormous Tunnelling Saw Mills &c., along this R R in Maine from Mattawamkeag to Vanceboro', furnish a large freight business to and from Bangor while the traffic of all lines with the prosperous Aroostook County, (population 25 000) constitutes a large item of revenue

To complete the E & N A Railway in Maine the Company issued its Bonds to the amount of Two Million Dollars secured by

FIRST & ONLY MORTGAGE

ON ITS ENTIRE ROAD AND PROPERTY FROM WINN TO VANCEBORO' (besides a Second Mortgage on the entire road and equipments from Bangor to Winn 58 miles This road is completed and stocked with rolling stock and is earning more than enough to pay the interest on the Bonds, leaving a handsome surplus for the Stock. More than half a million acres of the munificent grant are in Aroostook County the most fertile portion of the State, and are offered in exchange for land, lands in addition to the grant for the timber and timber lands are taken at Government prices. The Company have decided that the proceeds from the lands shall be applied in sufficient to pay all the Bonds of the Company long before maturity

The Bonds are for $1000 each, due March 1, 1899 bear interest at

SIX PER CENT PER ANNUM,

PRINCIPAL AND INTEREST PAYABLE IN

GOLD COIN,

Free from U. S. Taxation.

Coupons payable March 1 and September 1 in New York. Bonds registered if desired. Coupons made payable (28 each) in London England, if preferred

SINKING FUND—All proceeds of sales of land, as well as of timber and other products therefrom, are, by the Trustees, to be invested in these Bonds if they can be bought at par or less, otherwise in United States Gold or Municipal Securities. And on July 1 1879 and annually thereafter until these Bonds become due or are all paid, the E. & N. A. Railway Co is bound to pay to the Trustees a sum of money equal to one per cent of the amount of Bonds outstanding. Such amounts, and all interest received on securities belonging to the SINKING FUND are to be invested as above stated, and the accumulations are solely for the purpose of additionally providing for the redemption of these Bonds. Designed to add considerably to the great element of security and strength, and add to the safety of these Bonds

The Trustees are Hon HANNIBAL HAMLIN of Bangor, Me and J EDGAR THOMSON, Esq, of Pittsburgh Pa

The Trustees are authorized to receive the Bonds at Par and Accrued Interest in payment for any of the lands at their appraised value

Only a limited portion of the entire issue now remains to be sold By far the larger part has already been taken, by Savings Banks, holders of Trust Funds, and parties purchasing for permanent investment. A remarkably successful business on the Road and the certainty of its increase added to the unusually ample security of these Bonds (100 acres of timber and farm lands to each Bond) MORTGAGE on the Railway and application (unless) makes them deservedly popular with the most careful investors

Full information of U S Bonds are being exchanged for these securities, the holders realizing 19 26 per Cent difference in Cash besides nothing to receive the same interest (6 per cent gold) as on U S 5 20's

These very desirable securities for sale at

90 AND ACCRUED INTEREST IN CURRENCY

U S Bonds are also all marketable securities received at the highest market price in exchange for these Bonds and can be sent by Express at a trifling cost.
